

Lift the Flap Books

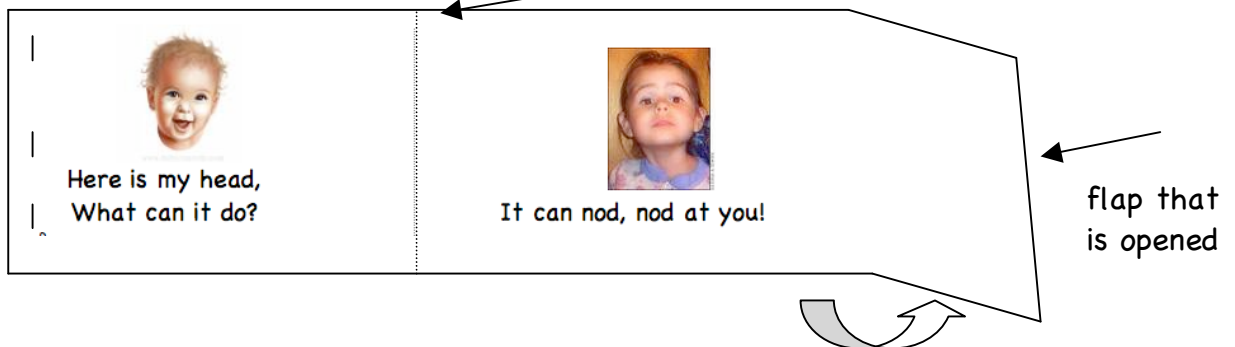

This is a *Lift the Flap Book*. The children fold ***the flap out book***. Children find it excited to get the "answer" by lifting up a flap.

Cut the pages apart and fold the flap to the dotted line. Put the book together and staple or use 2 notebook rings. As the children "read" the book they guess what the answer is and then lift the flap out to check their answer.

I do this in small group. After we have "read" the book, I send home a copy and the directions to the parents.

The flap is folded to the dotted line.

Use the same directions to do the Community Workers "lift the flap" book.
